

EDGE-DRIVE SPIRALS

LEADING BAKERY HYGIENIC DESIGN

CBF's Edge Drive Spiral System employs a tried and proven stainless steel Cambridge CamEDGE belt that is excellent for conveying products, trays or packaged goods. The belt's open design provides excellent airflow as well as easy belt cleaning with an optional belt washer. A heavy duty, sanitary, open C-frame support system allows for wide belts and heavy product loading.

APPLICATIONS

- Ambient or Refrigerated cooling
- Proofing
- Elevator
- Lowerator
